EXPERIENCE

Front End Developer, Excellence Technology, August 2024-January 2025

Mohali, Punjab

- Designed and developed responsive websites optimized for mobile and desktop platforms.
- Assisted in developing and maintaining user-friendly websites.
- Determined job priorities for multiple projects and communicated sequencing, priorities, and timelines to entire team.
- Built website content and designs using HTML and CSS.
- Defined and conducted design processes at all stages, including research, conceptualization, testing and implementation.
- Implemented responsive design principles to ensure websites are mobile friendly.
- Directed design, writing and production of page content to fulfill project demands and satisfy customer needs.

PROJECTS

[My Portfolio](#) (Click to visit Project)

- Developed a personal portfolio website to showcase my skills, projects, and achievements. The website features a clean, responsive design with interactive elements, highlighting my expertise in web development

[Weather Checking](#)

- Developed a dynamic weather-checking website using JavaScript, HTML, and CSS. The site features a responsive design and integrates with a weather API to fetch real-time data. It automatically detects the user's current location.

[Currency Converter](#)

- Developed a dynamic currency converter using React that integrates real-time exchange rate data through an external API. The website offers a user-friendly interface and includes a feature to swap currencies.

[Ecommerce Store](#)

- I developed a dynamic E-commerce website using React that integrates product data from a custom-built API using ContextStore. The website offers a user-friendly interface and includes a feature to add products to the wishlist and Cart.
